UNMATCHED DELIVERY & ACCURACY

GibsonProducts.com

YOUR SHORT-RUN SPECIALIST:

SPECIALTY FITTINGS AND FLANGES 24/7

Gibson's specialty fittings and flanges can be relied upon to perform in the most demanding of applications. Our highly-skilled team can help solve customer problems quickly and effectively while providing innovative solutions for emergency situations. Gibson sets the standard for meeting and exceeding the demands of distributors committed to selling quality products in a range of industries around the globe.

OUR

STRENGTHS

With a proven reputation of on-time delivery and high-quality products, distributors across the globe trust Gibson to solve their pipe fitting, flange, and specialty needs quickly and efficiently. We are on call, providing service to our customers 24 hours a day, 7 days a week.

We Offer Unmatched Delivery

Always available 24/7 for emergencies, we are short-run specialists who are known in the industry as the ER of pipe fitting and flange manufacturing. Get an immediate quote: one call and you're done. With our unprecedented delivery, we can get you what you need, when you need it—anywhere in the world.

Over 99% Accuracy Rate

We don't make mistakes; we strive to get it right each and every time. Our goal is to make you look good. Partner with us, and we'll save your customer time and money in the long run.

Proven Quality and Testing

All our products are made to order. In addition, we perform Positive Materials Identification (PMI) both on all raw material we receive in and prior to shipping any finished goods. We also provide Traceability Documentation (MTRs) with all shipments. Each part undergoes extensive quality control inspections prior to shipping.

Certifications

- * ISO 9001:2015
- * Pressure Equipment Directive PED -2014/68/EU Annex 1 Paragraph 4.3
- * HSB CSA-B51 Certificate-7.2023
- * CRNs (Canadian Registration Numbers) for all provinces

PRODUCTS

Gibson Products specializes in manufacturing flanges, forged pressure fittings, butt-weld fittings, branch outlets, and much more.

Along with a reputation of meticulous in-house testing, and exceptional quality assurance program, Gibson's specialty fittings and flanges can be relied upon to perform in the most challenging industrial conditions. Custom manufacturing services are available, per customer prints, for any pipe fittings, or parts.

Branch Connections

High-quality, integrally reinforced branch connections with butt weld, socket weld, and threaded ends can be supplied in any applicable schedule or pressure rating and are available in all materials and sizes ranging from 1/8" through 24".

Weld On Branch Connections	Insert Branch Connections
Elbow Branch Connections	Sweep Branch Connections
Lateral Branch Connections	Insert Lateral Branch Connections
Flanged Branch Connections	

Forged Pressure Fittings

Fittings are available in 2000, 3000, 6000, and 9000 pressure classes, as applicable, and are manufactured in accordance with ASME B16.11, MSS SP-83 and MSS-SP79 specifications.

45 Degree Elbows	Crosses
90 Degree Elbows	Laterals
Tees	

Flanges

Standard flanges are manufactured to ASME B16.5, ASME B16.36, ASME B16.47 specifications, and DIN standards.

Weld Neck	Long Weld Neck	Orifice
Threaded	Socket Weld	Blind
Slip-On	Lapped Joint	Paddle Blind
Bleed Ring		

Butt-Weld Fittings

Gibson is particularly recognized throughout the industry as a short-run specialist for smaller, heavy wall Butt-Weld fittings. Our Butt-Weld fittings are available in any schedule or wall thickness and are manufactured to ASME 16.9, ASME 16.28, MSS-SP 75 and MSS-SP 43 standards.

Elbows 90° & 45° long & short radius	Crosses
Return bends 180° long and short radius	Tees
Stub End long and short pattern	Wyes
Concentric & Eccentric Reducers	

“

As a leader in urgent and quick-turnaround manufacturing, Gibson provides a critical service to businesses across multiple industries.

”

RAW MATERIALS & INVENTORY INVENTORY

Gibson's expansive Houston-based facility enables us to carry a large inventory of flange forgings, pressure fitting forgings, forged round bar and pipe. Most grades of stainless steels, carbon alloy steels, chrome, nickel, aluminum, copper alloys, and exotic alloys are in stock and manufactured in accordance with ASME and ASTM specifications. We have an extensive raw materials inventory to meet rapid—many times on the same day—delivery of new orders.

Our Wide Variety Of Materials Includes:

- Carbon steels
- Stainless steels
- Chrome moly
- Nickel alloys
- Aluminum
- Copper nickel
- Titanium
- Zirconium
- Ferralium
- Alloys per customer specification
- Materials used for Hydrofluoric Acid (HF) Alkylation Service

INDUSTRIES SERVED

At Gibson, we believe that using quality materials sets the stage for crafting reliable products. We take pride in the work we do for others. Gibson provides specialty manufacturing for a variety of products—flanges, pressure fittings, branch outlets, and more—in an extensive range of materials and sizes to industries including:

- Petrochemical
- Refining
- Fertilizer
- Electrical Utility
- Pulp & Paper
- Other energy
- And a variety of related industries worldwide

1985

TODAY

OUR HISTORY

Over 30 years later, we continue to strive for the same goal we set out to meet in the beginning: fulfilling customer needs for high-quality fittings with fast delivery. Today, we operate out of over fifty thousand square feet of manufacturing and warehousing facilities in Houston, Texas, where we work to quickly get our customers the specialty products they need.
